

# Real Sheepskin

# CHALLENGE CHAIR

## DESIGN 2010

### To design an Iconic 21st Century Chair

- Featuring recline facility, in-built footstool, armrests and suspension system.
- Wool and/or sheepskin should feature predominantly.
- The Chair's footprint must not exceed that of a normal, family household armchair.

The panel of three judges will favour economy of design and manufacture as well as novelty.

£1000 will be paid for the winning finished working prototype, together with a copy of the full work portfolio recording the Chair's 'coming – to – life' story.

The RSA will offer discretionary help in sourcing and supply of upholstery materials together with an upholstery sewing facility.

Challenge Chair entries must be completed by 31st August 2010.

It would be our intention to showcase the **Chair** widely in events leading up to and during the first *National Wool Week* commencing Monday 11<sup>th</sup> October 2010.
